FY22 Budget Review. Multiple queries asked for information regarding DEPOSEDEF Hick's memo identifying key programs for review prior to formulating the FY22 budget request. Reporter asked how the Deputy Secretary identified the key areas to review and for a copy of the memo. PA provided that the directive is an internal planning document and not intended for public release.

American Airlines (AA) Incident. Multiple reporters asked about reports that a "cruise-missile-type object" passed near an AA flight over New Mexico. For reporters who asked whether the object was a U.S. military missile, PA stated that the military was not conducting any testing in that area, at that time. Reporters who asked in general about the incident, or whether DoD was investigating the "UFO" or Unidentified Aerial Phenomenon (UAP), were referred to AA or the FBI, per coordination with the FBI National Office, who first alerted PA to the incident.

VED. (U//~~FOUO~~) Tri-border insecurity continues in the Mali-Niger-Burkina Faso region, with two Malian soldiers being killed by an IED on 14 Feb. The multiple armed groups that appeared in central Mali in 2015 have thrived on the old antagonisms linked to land disputes and ethnic groups, and attack any remaining symbols of state representation to foment tension. Separately, Iraqi sources reported that a contracted U.S. military logistics convoy was targeted in Babylon on 25 Feb. In recent months, convoys carrying logistics equipment for U.S. troops stationed at Iraqi military bases have been targeted by roadside IEDs. No group has claimed responsibility for the attack at this time.

Burma. (U//~~FOUO~~) On 25 Feb, demonstrations throughout Burma continued for the 20th straight day, numbering approximately 15,000 protesters across several sites. Multiple reports indicated Civil Disobedience Movement (CDM) demonstrators were met with violence instigated by pro-military protesters. Protests reportedly planned for 26 and 28 Feb, and 1 Mar, are alleged to be "larger demonstrations"; no further information. There are no known threats aimed at U.S. interests. U.S. Embassy Rangoon is working to confirm future protests, and identify potential impacts to operations and the 28 Feb charter flight to the U.S. for Chief of Mission personnel and American citizens. AMEMBASSY Rangoon Comment: 115 U.S. citizens expressed interest; although, a lower number is expected to travel. (State)

(U) The IAEA and Iranian officials reached an agreement that will extend its nuclear monitoring until 24 Jun. While the two sides reached an extension, the head of the UN's nuclear inspectorate disclosed that Iran's failure to provide credible explanations for traces of uranium found at two undeclared sites is "a big problem" that is affecting the country's credibility, as it goes through its fifth round of negotiations in Vienna.

(U) Iran and the signatories of JCPOA continued talks to reach a nuclear agreement in Vienna, which Iranian officials said will not impede upon its electoral process. The Iranian Interior Ministry named the final candidates approved for the 18 June presidential elections by the Guardian Council, with several prominent reformist and pragmatist excluded from the list. The disqualification of key presidential hopefuls triggered harsh reactions in Iran, with the current President writing Ayatollah Khamenei to express his grievances about the disqualification of certain presidential hopefuls — including his Vice President Es'haq Jahangiri. The Guardian Council's decision seems to solidify conservative Ebrahim Raisi's position as the top presidential candidate, which is projected to have an effect on the JCPOA negotiations if a deal is not reached beforehand.
